

Evett J. Ruffcorn, FAIA

Ev Ruffcorn has more than thirty years of experience as a principal designer and before founding his own design firm **Ruffcorn Mott Hinthorne Stine**, he was partner-in-charge of design at the Seattle office of the nationally commended firm Zimmer Gunsul Frasca Partnership. Ev has applied the art of architecture and community building, with patience and tenacity, to attain not only design excellence, but also the completion of numerous influential and award-winning buildings.

Ev is driven to create buildings that express humanity and a strong sense of social purpose. By treating spaces elegantly – and with dignity – his buildings represent the values of the people who occupy them, the institutions they symbolize, and the communities of which they become a part.

In 1997, Ev was named a Fellow by the American Institute of Architects.
